

# Autoloader for FlexScan®

## Unattended Scanning for Fiche and Aperture Cards.

nextScan

### Enables Unattended Batch Scanning.

**Reduce Operator Intervention.** The Autoloader is an optional attachment for scanning Fiche and Aperture Cards with nextScan's FlexScan® solution. The Autoloader automatically loads and unloads fiche and aperture cards for unattended scanning and enables faster batch scanning by reducing operator intervention.

### Flexible Scanning Capabilities for Fiche & Aperture Cards.

**Versatile Scanning.** The Autoloader can handle mixed micrographic media formats including: standard fiche, jacketed fiche, jumbo/ultra fiche, mini fiche (3" x 5") and aperture cards. Additional fiche formats can also be accommodated (up to 8" x 5") with custom loader inserts.

### Ideal for High-Capacity Scanning Projects.

**High-Capacity Load and Unload.** The Autoloader has the capacity to hold 200 microfiche, 150 film jackets or 100 aperture cards and can be loaded and unloaded in as little as three seconds, streamlining the scanning process.

### Benefits

- Fast, Quiet, Easy to Operate
- Outstanding Fiche Separation Ability
- Frees up Operators for Other Tasks
- One Operator, Many Scanners — Less Labor Costs
- Requires Minimal Service
- Upgrades Available for Existing FlexScan Owners
- One-Year Limited Warranty

### The FlexScan® Scanning Solution Includes:

- Scanner and PC
- High Resolution Lens with LuminTec™ Lighting Technology
- NextStar PLUS Workflow Software Platform
- Optional Ribbon Storage Device (RSD) - Stores RAW Uncompressed Images Until Ready for Output

### The System can Handle Unique Properties of Fiche, and Aperture Card Scanning:

- Title Bar Information
- Variable Size Documents and Image Positions
- Variable Indexing to Digital Files
- Captures up to 3 Levels of Blips
- Enhancement of Signatures and Handwritten Data on Filmed Images
- Scan Aperture Cards and Oversized Fiche, Including Ultra and Mini Fiche Sizes

### Scanning Throughput Speeds with Autoloader

**Benchmarks** based on 200 DPI Scan Resolution, at 24x Reduction Ratio.  
**Higher scan speeds available under rental, lease, or contract.**

#### FlexScan 800 PPM

Fiche	13 Seconds Per Fiche (Jacketed 5 Row Fiche) 47 Seconds Per 15 Row COM Fiche (77 per hour)
-------	----------------------------------------------------------------------------------------------

Aperture	4 Seconds Per Aperture Card
----------	-----------------------------

#### FlexScan 600 PPM

Fiche	14 Seconds Per Fiche (Jacketed 5 Row Fiche) 56 Seconds Per 15 Row COM Fiche (64 per hour)
-------	----------------------------------------------------------------------------------------------

Aperture	4 Seconds Per Aperture Card
----------	-----------------------------

#### FlexScan 400 PPM

Fiche	17 Seconds Per Fiche (Jacketed 5 Row Fiche) 70 Seconds Per 15 Row COM Fiche (51 per hour)
-------	----------------------------------------------------------------------------------------------

Aperture	4 Seconds Per Aperture Card
----------	-----------------------------

\*Scanning speeds presented are estimates of raw scan time only, and do not include load time. Exact scanning results are dependant on client's conversion parameters, the condition of the microforms, and network capabilities.

### Scannable Media Types

Fiche Sizes, Formats, Polarities	Standard, Jumbo Fiche, Mini Jackets Jackets, Aperture Cards Step & Repeat, Film Jackets, AB Dick, Microx, COM, Aperture Cards Positive, Negative, Mixed
Fiche Types	Vesicular, Blue and Black Diazo, Silver, Duplex, Duo, COM, Blipped/Un-blipped and Mixed formats

### Capacity

Fiche/Aperture Card Autoloader:	<ul style="list-style-type: none"> <li>• Up to 200 Microfiche</li> <li>• Up to 150 Film Jackets</li> <li>• Up to 100 Aperture Cards (Depending on Film Thickness and Card Damage)</li> </ul>
---------------------------------	----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

### Physical Characteristics

Autoloader	Height - 9", Width - 15", Depth - 20", Weight - 28 lbs.
